

Question and Answer as of October 11, 2023, Regarding Snow Removal and Maintenance Quotes:

Question: The Request for Quotes for Snow Removal states that the start of the contract is January 1, 2024, for up to three years. If awarded the contract, how would a snow event be handled if it snows in November or December 2023? What is considered the “winter season” in each of the three seasons under contract?

Answer: Any snow removal or maintenance occurring before January 1, 2024, would be handled by the current contractor. CHFA would anticipate that on or after January 1, 2024, the selected contractor would handle snow removal and maintenance throughout the term of the contract regardless of the season.
