DEPARTMENT OF HOUSING**

**in partnership with the**

**CONNECTICUT HOUSING FINANCE AUTHORITY**

**State-Sponsored Housing Portfolio Recapitalization  
Notice of Funding Availability**

This Notice of Funding Availability (this “NOFA”) is directed to owners of properties in the State-Sponsored Housing Portfolio (the “Portfolio”) seeking funding from the Department of Housing (“DOH”) and/or the Connecticut Housing Finance Authority (“CHFA”).

**A. Background**

In 2012, the Governor announced a 10-year, \$300 million initiative to revitalize the Portfolio. In 2013, CHFA engaged a consultant to prepare a capital plan to inform the revitalization of the Portfolio properties in accordance with the Governor’s initiative (the “Capital Plan”). Over the course of this 10-year period, initially guided by the Capital Plan, DOH and CHFA expect to invest the funds authorized under this initiative to rehabilitate or redevelop each of the properties in the Portfolio. Total approximate funding available in connection with this NOFA is approximately \$20 million.

**B. Eligible Applicants**

Consideration for funding under this NOFA will be given to owners of:

- Properties for which the Capital Plan targets a transaction in 2014 through 2020
- Limited Equity Cooperatives; and
- Properties without specified transaction years and designated “Current - At-Risk” in the Capital Plan.

A complete list of eligible properties is included as Exhibit A.

Eligible applicants must be the owner of a property within the Portfolio, or a new affiliated entity created by such owner solely for the purpose of financing the capital improvements to the property.

Portfolio property owners intending to apply for 9% LIHTC’s (with or without subordinate State capital financing) should not respond to this NOFA and should instead apply in the annual 9% LIHTC round in the fall of 2018. Further guidance regarding such 9% LIHTC round applications will be provided at a later date.

Portfolio property owners, whether eligible for funding under this NOFA or not, may opt instead to apply for State capital financing (as well as 4% LIHTC’s and tax exempt bond financing) in a future DOH funding round under the Competitive Housing Assistance for Multifamily Properties (CHAMP) initiative (or other funding round for which the project is otherwise eligible) if, and only if, the proposed project will result in the greater of (a) an increase of at least 20 new housing units and (b) an overall increase in the housing units at the property of at least 20%. For example, a property with 30 units would be eligible if the proposed redevelopment project would add at least 20 units. Any such new units must not be age-restricted. Waivers may be requested for minor deviations from this threshold when meeting the threshold is not feasible.

The SSHP Pre-Transaction Critical Needs Funding remains available for projects that are not eligible under this NOFA but which may have immediate, discrete capital needs that must be addressed prior to the property's scheduled transaction year. Additional information regarding SSHP Pre-Transaction Critical Needs Funding is available at [www.chfa.org](http://www.chfa.org).

Portfolio property owners, whether eligible for funding under this NOFA or not, may apply for predevelopment funding. Additional information about application requirements is available at [www.ct.gov/doh](http://www.ct.gov/doh).

Portfolio property owners are encouraged to contact their designated CHFA asset manager for more information on predevelopment or pre-transaction critical needs funding.

### **C. Eligible Uses of Funding**

Under the Capital Plan, recapitalization models were developed with a transaction-specific recommendation for each property in the Portfolio. It is expected that the financial structure and scope of capital work of each transaction presented in response to this NOFA will be substantially similar to the recommendations for the project in the Capital Plan.

**No later than February 1, 2018, all applicants must request a DOH/CHFA Pre-application Meeting to discuss their proposed plan prior to submission of an application.**

**In the event an application for funding in response to this NOFA proposes a project scope that differs from the Capital Plan recommendation, such difference(s) must be highlighted and justified in the DOH/CHFA Pre-application Meeting.**

The Capital Needs Assessment portion of the Capital Plan does not include the cost of environmental assessments, soft costs such as architectural, environmental testing, resident relocation, legal, and clerk of the works or similar nor does it include costs related to minimum required wage rates. Applicants will need to include any applicable costs in their application. Developer fee is eligible for tax credit transactions only. CHFA will hire a field observer during construction to represent the interests of CHFA and DOH. These costs will need to be included in the applicant's budget as well as costs to perform a close out audit of program costs.

Under the Capital Plan, leveraging of non-state resources is a priority and applicants are encouraged to seek all available resources, including those under their control. At a minimum, owners must leverage development reserves in excess of the CHFA per unit minimum and include a letter of participation from the utility company.

Because the Capital Plan does not prescribe a transaction scenario for limited equity cooperatives or properties designated as "Current - At-Risk," owners must propose a sustainable recapitalization plan that best meets the specific needs of these properties.

**Pre-Application dates and times have been pre-reserved from February 1, 2018 through February 16, 2018. No later than February 1, 2018, you must schedule a meeting during this time period to be eligible for this funding round. To request a DOH/CHFA Pre-Application Meeting please, contact Sharon Klesseck at 860-571-4357. Dates and times are filled on a first come first serve basis.**

Any application that proposes capital financing significantly in excess of Capital Plan recommendations, as adjusted, must highlight and justify these deviations.

**There is no rental assistance available for this round.**

## D. Application Submission Requirements

A completed Consolidated Application (ConApp) must be submitted to be considered for funding. Threshold requirements, among others, for this application are:

- Architectural drawings and specifications that, at a minimum, meet the 40% completion standard, as defined in CHFA's 2018 Multifamily Design, Construction and Sustainability Standards and have been completed by an architect licensed in Connecticut. ("As-built" drawings and specifications will not be accepted.)
- Qualified development team members have been selected (including a licensed general contractor, architect and development consultant, as necessary)
- Demonstration in the application that rents (including any phased-in increases) will provide for sustainable operations for a minimum of 15 years
- Phase I Environmental Report
- Phase II Environmental Report (if required per below)
  - As stated in section 4.8.b of the ConApp, if a Phase 1 ESA recommends a Phase 2 ESA, the Phase 2 ESA must be submitted with the application for funding. If the Phase 1 ESA is silent as to whether a Phase 2 ESA should be completed but has identified one or more Areas of Concern (AOC), then a Phase 2 ESA must be completed and submitted with the application.
- Hazardous materials report, including radon testing and visual mold survey
- Zoning approval, if required
- Letter of Participation (LOP) with local utility company detailing energy-efficiency measures, estimated energy savings and incentives. The LOP process may take up to 30 days. In order to meet this requirement, applicants are advised to contact their local utility company as soon as possible to initiate the LOP process.

**E. Selection Criteria**

Applications will be evaluated according to priority as illustrated in the following chart:

Proposed alternative projects may be deemed “justifiable and sustainable” by DOH and CHFA, after a DOH/CHFA Pre-application Meeting with the potential applicant, if the alternative project is cost effective, sustainable, leverages non-State resources to the maximum extent, and, based on the totality of the facts and circumstances, is a prudent approach in the interest of the State, CHFA, the property residents and the property owner.

All applications will be evaluated in sequence above. Applications will then be evaluated within the above priority Assignment categories, based on the following characteristics:

- Readiness to Proceed
- Development Team Capacity
- Leveraged Non-State Resources

\*A proposal is “sustainable” if it demonstrates that, after implementing the measures outlines in the proposal, the property’s 20-year capital needs are met and the property’s operations will not require further capital investment over a 15-year period.

**Applicants that do not meet the eligibility requirements defined in Section B will not be considered.**
