

Coronavirus (COVID-19) Information and Links

To: Property Owners and Property Managers

CHFA, along with other Connecticut state and federal agencies, are being prudent in preparations for the anticipated arrival of COVID-19 to our state. As we serve many at-risk residents at our properties, we want to ensure we all do our part in taking safety and health precautions for residents and staff. Preparations include contacting your essential agency partners that are coordinating efforts in your communities. Health, social service, schools, senior centers and others are forming critical teams to coordinate safety precautions, along with response to any outbreak.

This is a fast-moving, constantly changing situation. Please reach out to your community partners so that you are well-informed and prepared to guide your residents with ongoing up-to-date information to reduce misinformation, fear and panic.

Below are several links to resources to obtain the most current information and recommendations:

- Center For Disease Control: <https://www.cdc.gov/>
- CT Department of Public Health: <https://ct.gov/coronavirus>
- Department of Housing and Urban Development: <https://www.hud.gov/>
- World Health Organization: <https://www.who.int/>

Thank you.
