Threshold Income Limits Chart - Form 048-0405 Rev 5-27-22

The threshold income limits for recapture tax liability chart is used to calculate any potential tax due based on the geographic location of the home and the number of years of ownership.

UNDERSTANDING RECAPTURE TAX

CONGRATULATIONS on choosing the Connecticut Housing Finance Authority's Homebuyer Program to finance the purchase of your home. Because the purchase of your home is being financed with tax exempt bond proceeds, you may be subject to a recapture tax at the time you sell your home. However, you will not be required to pay this recapture tax if any one of the following applies or you may be eligible for reimbursement from CHFA.

- Your income is below the designated federal income limit at the time you sell or otherwise dispose of your home.
- You sell your home more than nine (9) years after you buy it.
- You do not realize a gain on the sale of your home.

Please review the "Recapture Tax Threshold Income Limits" chart (CHFA Form 048-0405) located at www.chfa.org if you sell your home within nine (9) years of purchase to determine if your income exceeds the listed limits in the year you sell or otherwise dispose of your property.

If your income exceeds the federal income limit for the year in which you sell your home, you will then need to determine the recapture percentage for the corresponding year you sell your home, as noted below, in order to calculate the recapture tax:

<u>Home Sold</u>	<u>Recapture Percentage</u>
Year 1	1.25%
Year 2	2.50%
Year 3	3.75%
Year 4	5.00%
Year 5	6.25%
Year 6	5.00%
Year 7	3.75%
Year 8	2.50%
Year 9	1.25%

Below are the steps required to determine the recapture tax for the year in which you sell your home.

1. INCOME LIMIT - Determine your modified adjusted gross income below:

Adjusted Gross Income from IRS 1040		\$	
Tax exempt income earned for the year		+	
Gain on sale of the home		-	
Modified Adjusted Gross Income	=	\$	

Then determine if this income exceeds the "Recapture Tax Threshold Income Limits" (CHFA Form #048-0405) for your family size and home location, based on the year you are selling your home. If you exceed the limit, continue; if not, no recapture tax is due.

2. INCOME PERCENTAGE
Subtract the federal threshold income in the chart from your Modified Adjusted Gross Income (1. above). Then, divide that amount by \$5,000 in order to get the income percentage. (However, if the result is over 100%, use 100%).
3. RECAPTURE PERCENTAGE
Determine the recapture percentage due based on the year you are selling your home.
4. CALCULATING RECAPTURE TAX
Multiply your original amount borrowed times the recapture percentage times the income percentage in 2. above. This amount, or 50% of the gain on the sale of your home, whichever is less, is the recapture tax for the year in which you sell your home.

Please Note: You may be eligible to receive reimbursement from CHFA if you are required to make the Federal Recapture Tax payment. See "Request for Federal Recapture Tax Reimbursement" (CHFA Form 049-0313).

We hope you have found this information helpful in understanding the Federal Recapture Tax. If you have any questions, please discuss them with your mortgage loan officer or reference the Internal Revenue Service (IRS) guidelines.

NOTICE OF POTENTIAL RECAPTURE TAX ON SALE OF HOME

Because you are receiving a mortgage loan from the proceeds of a tax-exempt bond, you are receiving the benefit of a lower interest rate than is customarily charged on other mortgage loans. If you sell or otherwise dispose of your home, within nine years of purchase, this benefit may be "recaptured." The recapture is accomplished by an increase in your federal income tax for the year in which you sell your home. The recapture only applies, however, if you sell your home at a gain and if your income increases above specified levels.

You may wish to consult a tax advisor or the local office of the Internal Revenue Service at the time you sell your home to determine the amount, if any, of the recapture tax. At the closing of the purchase of your home, you will be given additional information that will be needed to calculate the potential recapture tax.

You may be eligible to receive reimbursement from CHFA if you are required to make a recapture tax payment. To request reimbursement, you must submit a written request to CHFA no later than December 31st of the year the federal recapture tax is owed and paid.

Example:

If your home is sold in 2014 and the tax return is filed in 2015, the request for reimbursement must be filed with CHFA no later than December 31, 2015. (Reimbursement requests must be submitted to CHFA before year end in the same year the tax was owed and paid to the IRS).

Please see the document provided to you at the loan closing entitled Notice to Mortgagor of Maximum Recapture Tax and Method to Compute Recapture Tax on Sale of Home for further information.

The undersigned acknowledges receipt of a copy of this Notice. I/We have read and understood the above disclosure.

If I/we sell or transfer the home being financed with this mortgage loan during the first nine years after the date of closing, I/we have the responsibility of computing and paying the recapture amount, if any, due the federal government.

**NOTICE TO MORTGAGOR OF MAXIMUM RECAPTURE TAX AND
METHOD TO COMPUTE RECAPTURE TAX ON SALE OF HOME**

Loan #: _____

Borrower/s Name: _____

A. Introduction

1. **General.** Your home is being financed in whole or in part with tax-exempt bond proceeds issued by the Connecticut Housing Finance Authority (CHFA), therefore, when you sell your home you may have to pay a recapture tax as calculated below. In addition, the recapture tax may also apply if you dispose of your home in some other way. Any reference in this notice to the "sale" of your home also includes other ways of disposing of your home. For instance, you may owe the recapture tax if you give your home to a relative.
2. **Exceptions.** In the following situations, no recapture tax is due and you do not need to do the calculations:
 - (a) You dispose of your home later than nine years after you close your mortgage loan;
 - (b) Your home is disposed of as a result of your death;
 - (c) You transfer your home either to your spouse or to your former spouse incident to divorce and you have no gain or loss included in your income under section 1041 of the Internal Revenue Code; or
 - (d) You dispose of your home at a loss.

B. Maximum Recapture Tax. The maximum recapture tax that you may be required to pay as an addition to your federal income tax is \$ _____. This amount is 6.25% of the highest principal amount of your mortgage loan and is your federally subsidized amount with respect to the loan.

C. Actual Recapture Tax. The actual recapture tax, if any, can only be determined when you sell your home, and is the lesser of (1) 50% of your gain on the sale of your home, regardless of whether you have to include that gain in your income for federal income tax purposes, or (2) your recapture amount determined by multiplying the following three numbers:

- (i) \$ _____ (the Maximum Recapture Tax, as described in paragraph B above),
- (ii) The Holding Period Percentage, as listed in column 1 in the Table, and
- (iii) The Income Percentage, as described in paragraph D below.

D. Income Percentage. You calculate the income percentage as follows:

- (i) Subtract the applicable Adjusted Qualifying Income in the taxable year in which you sell your home, as listed in Column 2 in the Table, from your modified adjusted gross income in the taxable year in which you sell your home.

Your modified adjusted gross income means your adjusted gross income shown on your federal income tax return for the taxable year in which you sell your home, with the following two adjustments: (a) your adjusted gross income must be increased by the amount of any interest that you receive or accrue in the taxable year from tax-exempt bonds that is excluded from your gross income (under section 103 of the Internal Revenue Code); and (b) your adjusted gross income must be decreased by the amount of any gain included in your gross income by reason of the sale of your home.

- (ii) If the amount calculated in (i) above is zero or less, you owe no recapture tax and do not need to make any more calculations. If it is \$5,000 or more, your income percentage is 100%. If it is greater than zero but less than \$5,000, it must be divided by \$5,000. This fraction, expressed as a percentage, represents your income percentage. For example, if the fraction is \$1,000/\$5,000, your income percentage is 20%.

E. Limitations and Special Rules on Recapture Tax

1. If you give away your home (other than to your spouse or ex-spouse incident to divorce), you must determine your actual recapture tax as if you had sold your home for its fair market value.

2. If your home is destroyed by fire, storm, flood, or other casualty, there generally is no recapture tax if, within two years, you purchase additional property for use as your principal residence on the site of the home financed with your original subsidized mortgage loan.
3. In general, except as provided in future regulations, if two or more persons own a home and are jointly liable for the subsidized mortgage loan, the actual recapture tax is determined separately for them based on their interest in the home.
4. If you repay your loan in full during the nine year recapture period and you sell your home during this period, your holding period percentage may be reduced under the special rule in section 143(m)(4)(C)(ii) of the Internal Revenue Code.
5. Other special rules may apply in particular circumstances. You may wish to consult with a tax advisor or the local office of the Internal Revenue Service when you sell or otherwise dispose of your home to determine the amount, if any, of your actual recapture tax. See section 143(m) of the Internal Revenue Code generally.

Certain information relating to our mortgage loan is as follows:

Name(s) of Borrower(s): _____
Address of residence: _____
Date home was purchased by Borrower(s): _____
Date home was sold by Borrower(s): _____

The amount of recapture tax paid to the Internal Revenue Service (IRS) (“Request Amount”) as indicated above reflects the exact amount of recapture tax liability shown on Form 8828. I/We acknowledge that CHFA will not calculate the amount of our recapture tax and has no obligations or responsibility to verify the accuracy of our calculations.
