In 2016, CHFA updated its values to better reflect the standards and principles of its employees. These values are more closely aligned to the day-to-day work of the Authority and the goals we hope to achieve.

To illustrate how our values connect to the implementation of our programs, the values are highlighted along with the programs described on many pages of this report. By connecting our values and activities, we hope to share how the employees of CHFA work to carry out its mission.

MISSION
To alleviate the shortage of housing for low- and moderate-income families and persons in this state and, when appropriate, to promote or maintain the economic development of this state through employer-assisted housing efforts.

VISION
To have all low- and moderate-income residents in Connecticut live in an affordable, safe, quality house or apartment.

VALUES
Act with Integrity: We honor our responsibility to be sincere, honest, transparent and accountable in our work.

Bring Compassion to Our Customer Focus: We bring courtesy, responsiveness, efficiency and respect to all of our relationships.

Take Care of Our Resources: We responsibly and prudently manage the resources that have been entrusted to us to ensure the long-term sustainability of our mission.

Work as a Team: We achieve a common goal through teamwork, communication, and sharing our knowledge and resources.

Partner to Innovate: We are an innovative partner who is forward-thinking, committed to continuous improvement and open to new ideas and perspectives.

All Connecticut residents deserve a secure, comfortable and affordable place to call home - it is a basic human right. The Department of Housing (DOH), working with CHFA continues to make this dream attainable for thousands of individuals and families. The benefits of affordable housing go well beyond the walls of a home; it creates jobs, attracts workers and families and stimulates business. This is why my administration continues to support the expansion of affordable housing as a way of revitalizing communities, strengthening our economy and providing new opportunities for private sector investments.

CHFA helps to make homeownership affordable for our residents. With below-market interest rates, homebuyer education and a strong partnership with the banking community, thousands of Connecticut residents can say, “I bought my first home with a CHFA mortgage.” In 2016, more than 2,800 people became homeowners with the help of a CHFA loan.

In 2016, CHFA and DOH, with financial support from our partners in the federal government and private investors, approved funding for more than 1,600 units of sustainable, affordable housing for low-to-moderate income residents across the state. When added to the more than 10,000 units that have been completed in the last five years, and the number of units currently under construction, the total is nearly 21,000 units of affordable housing created during my administration.

The developments were designed to be sustainable, energy efficient and provide amenities like access to transit that encourages residents to explore their communities. Several projects restored historically significant buildings that might have otherwise remained vacant.

In addition to creating new residential units, CHFA and DOH collaborate with housing authorities in cities and towns to rehabilitate existing state-sponsored properties. These revitalization projects improve the quality of life for residents while preserving the value of state assets.

CHFA and DOH work with partners at many levels of local, state and federal government, along with members of communities around the state to provide viable housing options for Connecticut’s families. I applaud Commissioner Klein, CHFA’s Board of Directors and staff on the accomplishments of 2016 and assure you that I will continue to support any goals and efforts that make housing a possibility for all.

Governor Dannel P. Malloy

Letter From the Governor of the State of Connecticut
The Connecticut Housing Finance Authority (CHFA), in partnership with the Department of Housing (DOH), continues to create housing opportunities for low- and moderate-income individuals and families across the State of Connecticut. Under the Malloy administration, Connecticut is nationally recognized as a leader in the development of affordable housing and for its work to prevent and end homelessness. The momentum in Connecticut’s affordable housing industry continues to be unparalleled compared to previous years.

CHFA's single-family mortgages are important sources of financing that assist first-time homebuyers in realizing their dreams of homeownership. Last year, 2,843 individuals and families moved into their first homes with the support of a below-market interest rate CHFA mortgage. We would like to acknowledge the 100+ lenders who continue to partner with CHFA to provide these loans to low- and moderate-income borrowers as well as acknowledge the Realtors® who guide first-time buyers to CHFA.

In 2016, CHFA’s Board of Directors approved financing for 25 affordable multifamily rental developments with 1,687 units. Since 2011, CHFA and DOH have created, rehabilitated, or preserved 9,905 affordable units. There are 4,083 affordable units under construction, and funding commitments are in place for 6,800 more affordable units. In total, this represents more than 21,000 affordable units in some stage of construction or preservation. This investment extends into each Connecticut municipality creating jobs, economic opportunities, and more vibrant communities.

The changes, made as part of the LEAN Initiative, reduced staff oversight time on high-performing properties, allowing staff to devote more time to properties with greater needs. The system also created a more accurate reporting mechanism that highlights potential issues before they become unmanageable.

The dedication of the staff as well as the work of CHFA’s Board of Directors coupled with CHFA Values and Mission has produced outcomes to rapidly expand access to affordable housing opportunities. Whether it’s a CHFA mortgage that helps young couples buy their first home, or developing affordable units so that a person with a disability can live independently, or developing affordable units so that someone who has been homeless can get back on their feet; this investment in housing is transformative for individuals by enabling financial stability and growth.

This investment extends into each Connecticut municipality creating jobs, economic opportunities and more vibrant communities. CHFA remains steadfast in its commitment to individuals and families; to cities and towns across the state to continue this unprecedented progress.

Ewonne Klein
Commissioner, Department of Housing
Chairwoman, CHFA Board of Directors
Karl Kilduff
Executive Director, CHFA

Letter From the Board Chairwoman and Executive Director

Values and Mission has produced outcomes of CHFA’s Board of Directors coupled with CHFA’s ongoing LEAN Initiative focusing on efficiency and customer service continues to transform the agency, meeting the needs of CHFA customers. The National Council of State Housing Finance Agencies recognized CHFA this year for streamlining its property assessment system. The momentum in Connecticut’s affordable housing industry continues to be unparalleled compared to previous years.

The changes, made as part of the LEAN Initiative, reduced staff oversight time on high-performing properties, allowing staff to devote more time to properties with greater needs. The system also created a more accurate reporting mechanism that highlights potential issues before they become unmanageable.

The dedication of the staff as well as the work of CHFA’s Board of Directors coupled with CHFA Values and Mission has produced outcomes to rapidly expand access to affordable housing opportunities. Whether it’s a CHFA mortgage that helps young couples buy their first home, or developing affordable units so that a person with a disability can live independently, or developing affordable units so that someone who has been homeless can get back on their feet; this investment in housing is transformative for individuals by enabling financial stability and growth.

This investment extends into each Connecticut municipality creating jobs, economic opportunities and more vibrant communities. CHFA remains steadfast in its commitment to individuals and families; to cities and towns across the state to continue this unprecedented progress.

Ewonne Klein
Commissioner, Department of Housing
Chairwoman, CHFA Board of Directors
Karl Kilduff
Executive Director, CHFA

Board of Directors
CHFA has invested more than $480.6 million in single-family mortgages

CHFA has many mortgage options allowing borrowers to choose the best combination of interest, mortgage insurance and points for their budget. The full list of mortgage options is posted at www.chfa.org.

51% of borrowers took Downpayment Assistance Program (DAP) loans

First-time homebuyers often find the down payment and/or closing costs an obstacle to buying a home. Adding a CHFA DAP loan to a below-market interest rate CHFA mortgage helps many borrowers overcome that obstacle.

The DAP loan is a second mortgage that is used to cover the down payment and/or closing costs for borrowers who can afford mortgage payments but have not saved enough cash for those upfront costs of homeownership.

CHFA partners with more than 100 lenders in Connecticut to make loans easily accessible to potential borrowers. These 100 lenders have multiple locations and branches, making it convenient for borrowers to meet with a CHFA lender and review their options.

CHFA’s mission is to alleviate the shortage of affordable housing for low- to moderate-income individuals and families in Connecticut. That mission includes access to affordable homeownership. CHFA fulfills this mission by providing below-market interest rate mortgages, a down payment loan program, and homebuyer education for borrowers. There are special programs to support homeownership among veterans, members of the military services, those with disabilities, and borrowers buying a home in a Targeted Area, an area of the state targeted for revitalization and increased homeownership.
Single-Family Homeownership (continued)

Specialized Mortgage Programs

CHFA offers specialized mortgage programs to increase homeownership:

**62 Military Homeownership loans**
Available to first-time homebuyers who are veterans, or members of the U.S. Military Services.

**27 Teachers Mortgage Assistance Mortgage loans**
Open to public school teachers who teach and purchase a home in a priority or transitional district, or are certified and teaching in a state-designated subject matter shortage area.

**2 Police Homeownership loans**
Available to first-time homebuyers who are municipal and state police officers if they purchase a home in a designated area of a participating town. Qualified municipal police officers must also work in the town where they purchase their home.

To learn more about CHFA’s specialized loan programs and qualification criteria, go to [www.chfa.org](http://www.chfa.org)

Loans were purchased in 148 of 169 Connecticut towns.

This map shows where 2,843 mortgage loans were purchased in 2016.

To be eligible for a CHFA mortgage, borrowers’ income must be within CHFA’s income limits, and the homes’ purchase price must be within the sales price guidelines. These guidelines are established by the Internal Revenue Service (IRS) and the U.S. Department of Housing and Urban Development (HUD), and are updated periodically. Income restrictions may be waived for borrowers purchasing homes in Targeted Area, areas of the state targeted for revitalization and increased homeownership.
Foreclosure Prevention
121 homeowners received Emergency Mortgage Assistance Program (EMAP) loans

In 2016, $4.89 million in EMAP loans allowed 121 struggling homeowners to stay in their homes. EMAP loans allow borrowers with a temporary hardship, such as a job loss or health issue, to remain in their homes as they work to regain their financial stability. Applicants already in foreclosure must participate in the foreclosure mediation process with their lender before being considered for an EMAP loan.

Foreclosure prevention counseling clinics and prevention sessions play an important role in the tools available to reduce foreclosures. The demand for and attendance at these classes is down to 712 sessions as the housing market continues to improve. In 2016, CHFA provided funding to approved counseling agencies to offer foreclosure prevention clinics and counseling sessions. CHFA was awarded a HUD grant to support these programs.

Homebuyer Education
Buying your first home can be a difficult process. CHFA’s homebuyer education programs can make it just a little easier. Classes in English and Spanish are offered through CHFA and HUD-approved counseling agencies. All borrowers must complete one of CHFA’s options:

Pre-Purchase Class
An in-depth look at the financial and practical aspects of buying and maintaining a home. This eight-hour program also includes individual financial and credit counseling sessions.

1,823 prospective borrowers attended classes
1,083 also attended Pre-Purchase Counseling sessions

Pre-Closing Class
The Pre-Closing class is now available online or in person, making it more convenient for people to take a class. This three-hour class is an overview on a range of financial and practical topics a homebuyer needs to understand before completing the homeownership process. The Pre-closing class is required for any borrower who did not take a Pre-Purchase class.

1,627 prospective borrowers attended these classes in person
757 completed the online course in 2016

Landlord Education & Housing Counseling
The landlord education and housing counseling services provide detailed coverage of the technical, financial and practical aspects of buying a 2-4 family home, as well as the responsibilities that come with being a landlord. This class is required for all borrowers purchasing a 2-4 family home.

439 people attended these classes in 2016
2016 Initiatives and Highlights

In 2016, CHFA focused more on the outcomes of its work, looking beyond the number of mortgages or the number of units financed. The Authority increased activity with its partners, whether it be lenders, Realtors® and housing counselors for single-family mortgages, or developers, owners, managers and service providers for affordable multifamily housing. CHFA continues to work closely with DOH, the Department of Economic & Community Development and other state agencies to support the housing needs of state residents.

Successful Bond Issues in 2016

CHFA had seven successful bond issues for a total of $935 million in 2016. Excluding refunding, CHFA raised $512 million of lendable proceeds to fund single-family mortgages and $126 million to fund affordable housing developments.

CHFA’s bond program is an important tool for housing finance in the state. In addition to single-family mortgages, bond proceeds are used to finance affordable multifamily rental housing developments, which in turn generate jobs, tax revenue and economic activity in the state. The fact that many orders for the bonds came from local investors reflects the confidence the private sector places on CHFA and its affordable housing mission.

In 2017, CHFA anticipates issuing about $675 million of bonds, which will allow continuous funding for its first-time homebuyer program and new investment in the creation and preservation of affordable multifamily rental projects.

Jobs and Economic Growth Supported by Affordable Housing

Construction and renovation or rehabilitation of affordable housing generates jobs and economic activity in Connecticut. In 2016, developments approved by CHFA’s Board of Directors are estimated to create 253 construction jobs, and a total of 1,045 jobs in all areas. Using the REMI PI+ State Model, the developments are estimated to generate $348.64 million in new economic activity and $18.5 million in additional state revenue.

Increase in Homebuyer Education and Housing Counseling

CHFA funds homebuyer education and housing counseling programs at housing counseling agencies across the state. These programs are an investment, as research from HUD has shown that borrowers who attend education and counseling programs are 29% less likely to become delinquent on their mortgages in the future. In 2016, there was a 67% increase in attendance at Pre-Purchase classes due to increased outreach by the housing counseling agencies. CHFA expects the increase in homebuyer education to continue in 2017.

Searching for Innovative Funding Options

CHFA has been investigating potential funding options that can fill budget gaps, especially for housing authority properties in the state housing portfolio. For example, CHFA has used Qualified Energy Conservation Bonds (QECBs) to provide low-cost financing for energy-efficiency measures that can save money on operating costs for multifamily housing developments.

• Solarize SSHP was recognized as a “Bright Idea” by the Harvard Kennedy School’s Innovations in American Government program.

New partnerships

Benchmark CT is a new partnership between CHFA, Connecticut Green Bank and WEGOWise that offers energy management systems free to housing authorities for one year, allowing them to identify areas for improvement and measure the cost savings of energy-efficiency measures implemented.

Administering Tax Credits

CHFA administers the federal Low Income Housing Tax Credit program and awarded $14.5 million in 9% and 4% credits, which are expected to generate more than $170 million in tax credit equity from private investment. CHFA also administers the QECBs and the $10 million State HTCC tax credit programs.

Housing Authority Partners

CHFA began conversations with Conn-NAHRO Board members about strengthening the ties between CHFA and the housing authorities. We are working on a common agenda that may include guidance in implementing best practices, creating model Requests for Proposals and other templates and training/assisting owners to better understand the various funding application processes. In early 2017, CHFA added an employee to work directly with housing authority staff to enhance safety and security measures.

Affordable Multifamily Rental Housing

CHFA’s mission is to alleviate the shortage of affordable housing in Connecticut. To that end, CHFA provides construction and permanent financing for affordable multifamily housing at or below market interest rates. CHFA works closely with DOH and other agencies to maximize the funding available for affordable housing and to encourage private investment in affordable multifamily rental properties. The Competitive Housing Assistance for Multifamily Properties (CHAMP) launched in 2012, provides gap funding that can be leveraged with tax credits and other funding. In 2016, the CHAMP program allocated funding for 372 affordable housing units. CHFA financing is often combined with other funding mechanisms including Federal 9% and 4% Low-Income Housing Tax Credits (LIHTCs), State Housing Tax Credit Contributions (HTCCs), and State Historic Tax Credits, as well as CHAMP and other DOH funding. Developers are encouraged to combine CHFA funding with private bank financing, grants or equity as well as other public sources. Five properties, with a total of 550 units that were approved by the CHFA Board also received CHAMP funds, 4% LIHTC credits and CHFA Tax Exempt Bond funds.

**Information is based on application approval.

***These estimates were generated using the REM PI+ State Model, Regional Economic Models, Inc., Amherst, MA. Jobs are categorized into the following segments: construction, service industries, wholesale and retail trades, finance, insurance and real estate industries, and manufacturing.
Supporting Special Needs Housing

Supportive housing creates permanent, affordable service-supported housing opportunities for very-low income homeless individuals and families with severe and prolonged mental illness and/or chronic chemical dependency, and those who are homeless or at risk of becoming homeless, particularly those experiencing repeated or persistent homelessness.

Individuals experiencing homelessness, especially those with chronic medical or mental health issues, are frequent users of costly medical and community services including hospital emergency rooms, detoxification facilities, nursing homes, inpatient medical and psychiatric hospitals and prisons. The costs to the public for each of these alternative interventions far exceed the cost of providing supportive housing. Supportive housing provides a safe, affordable apartment with access to services that enable those with addictions or mental health conditions to live as independently as possible with dignity and respect. Residents of supportive housing enjoy improved health outcomes while gaining educational and employment opportunities as appropriate. The decrease in costly alternatives can be dramatic.

In 2016, seven affordable housing developments approved for financing by CHFA’s Board of Directors included 73 units of supportive housing in their unit mix.

State Housing Tax Credit Contributions

CHFA issues tax credit vouchers to business firms making cash contributions to qualified non-profits that develop affordable housing. The HTCC program awards $10 million annually, with $2 million set-aside for supportive housing, and $1 million set-aside for workforce housing. The HTCCs awarded in 2016 will fund development of 844 affordable homes or apartments.

Asset Management

Asset Management Staff oversees the State-Sponsored Housing Portfolio and a Private Portfolio

In 2012, Governor Malloy announced a $300 million commitment to fund improvements and revitalize the state’s public housing over 10 years. These funds are being administered by CHFA on behalf of DOH, with funding allocated each year.

To guide the allocation of funds to meet the most pressing needs across the 295 properties in the State-Sponsored Housing Portfolio (SSHP), CHFA commissioned The Capital Plan, which was completed in March 2014. The Capital Plan, which makes funding, policy and regulatory recommendations, is the road map for deployment of the Governor’s $300 million over 10 years, as well as $1.5 million in Rental Assistance Payment (RAP) program subsidies.

CHFA and DOH work closely on the implementation of the Capital Plan. Staffs from both organizations work together evaluating, rating and ranking applications. Depending on types of financing requested, CHFA or DOH will review the applications, however, CHFA’s Technical Services Group reviews all applications. DOH reviews applications for Predevelopment Funding and Technical Assistance for most applications.

SHP Capital and Pre-development funding continues, $18.7 million invested in 1,136 units

In 2016, seven properties, with a total of 383 units released allocations from the Governor's annual $30 million. One of these properties, Fairfield Ridge, also received 4% LIHTCs and CHFA Tax Exempt Bond (TEB) financing. Center Village was awarded funding through CHAMP. The charts to the left show the multiple phases of development activity in the revitalization of the SHP through The Capital Plan. While some properties are in the construction phases and nearing completion, other properties are in pre-development or using the technical assistance offered to get them ready to complete the necessary applications.

Update on Completed Projects

Now in Year 5 of the Governor's 10-Year revitalization plan for the SHP, the following summary provides an overview of the impact DOH and CHFA activities will have had on completed developments by December 31, 2016.

**Awards / Initial closed** | **Under construction** | **Completed**
---|---|---
Units | 1,284 | 857 | 847 | 2,988 units | 49 properties | $127.7mm
Properties | 21 | 12 | 16 | | | |
$ Awarded | 60.5mm | 24.3mm | 42.9mm | | | |

Private Portfolio Activity - 24,994 units

- CHFA continued its ongoing portfolio management oversight, which included performance management of its portfolio of 313 developments and 24,994 apartments, which includes Real Estate Owned (REO) properties held by a subsidiary of the Authority.
- CHFA acts as the HUD Contract Administrator for 59 project-based Section 8 developments, including the review and approval of $63 million in subsidy payments for 5,667 apartments. CHFA also subcontracts the oversight of 236 Section 8 apartments for Housing Authorities.
- CHFA monitors low-income housing tax credit compliance of 15,487 units at 242 properties.

REO Property
- Eno Farms, Simsbury: The property is held by CHFA Small Properties, Inc.
Community Development

Strengthening Communities through Housing and Community Development Special Programs

CHFA is committed to strengthening neighborhoods by helping to integrate housing within overall community development efforts. During 2016, CHFA continued its important collaborative investments with others active in this field and through direct program investments.

The Community Investment Account (CIA) provided funds to the Authority from 2005-2014. The CIA program was transferred to the Department of Housing by Public Act; however, existing CHFA contracts funded with the CIA continued to provide funding for the following programs in 2016:

CHFA/CGB Energy Benchmarking Initiative
CHFA and the Connecticut Green Bank partnered to provide web-based energy benchmarking and monitoring services. Benchmarking allows property owners to compare energy and water consumption of their buildings against similar peers, as well as identify opportunities for improvement, which can reduce costs, and improve building efficiency. The initiative is projected to benchmark 1,600 multifamily buildings across Connecticut.

Come Home to Downtown Pilot Program
This pilot program is aimed at creating housing opportunities while revitalizing downtown neighborhoods by providing customized technical assistance to communities and property owners of small, under-utilized downtown properties. Through a successful collaboration between the Connecticut Main Street Center and CHFA, nine properties in eight communities have participated in the program. A New Britain property is being redeveloped and is expected to be completed by Summer 2017. This property will create 16 new apartments near the CTfastrak Station. The properties in the pipeline will create 54 new apartments.

Rural/Suburban Program (Housing Connections)
The Local Initiatives Support Corporation (LISC) administers the program known as “Housing Connections.” This program provides technical assistance to smaller towns that are interested in learning about, or developing, affordable housing. During 2016, Housing Connections provided technical assistance to 43 groups in 40 towns throughout the state. Since its inception, the program has provided technical assistance leading to the development and/or redevelopment of 485 affordable homes, representing nearly $84 million of development activity.

South Norwalk Pilot Renovation Program
The Norwalk Redevelopment Agency, through its nonprofit community development housing corporation, North Walke Housing Corporation (NWHC), provides housing opportunities for low- and moderate-income individuals and families in Norwalk. NWHC has established a purchase/rehabilitation program to support revitalization and stabilization efforts near the train station, while providing much-needed affordable housing. NWHC will purchase and rehabilitate up to five small multifamily properties (2 to 4-family houses) over the next three years. Once rehabilitated, households with incomes at 80% Area Median Income (AMI) will be eligible to purchase the homes as long as they make the rental unit available to households earning 50% AMI. In 2016 blighted and vacant property was completed and sold.

Transit-Oriented Development Capital Fund
The Department of Economic and Community Development and CHFA invested in the creation of a $15 million private capital fund managed by LISC. This fund supports a mix of developments including new housing, retail and commercial office space near transit hubs. In 2016, LISC approved three loans providing acquisition and predevelopment financing for the redevelopment of properties in Hartford and West Hartford.

Housing Authority Small Improvement Program (HASIP)
The purpose of the program is to provide funds to State-Sponsored Housing Portfolio Properties that wish to make physical improvements or provide resident activities or programming. In 2016, 1,275 housing units with 1,596 residents benefitted from this program.

Supportive Housing Quality Assurance Program
Corporation for Supportive Housing was retained to catalog all units of permanent supportive housing created through mainstream funding resources, particularly the Low-Income Housing Tax Credit program, assess the quality of each of the projects and develop a plan to improve the quality through technical assistance.

Community Development Financial Institutions (CDFIs)
CHFA invests in CDFIs to provide technical assistance and financing to non-profit and for-profit developers associated with community development, and assist in the coordination of comprehensive community development throughout the state. CHFA currently has investments in and partnerships with LISC, the Hartford Community Loan Fund, the Housing Development Fund and Capital for Change.

The funds invested in CDFIs from 1999-2016 have resulted in 128 completed transactions financing over 2,500 housing units. The Authority’s cost per unit on these transactions was approximately $11,000.

Affirmative Action Policy Statement

The Connecticut Housing Finance Authority is committed to the achievement of all goals set forth in our Affirmative Action Plan within the timeframes established. This commitment extends equal employment opportunity to all, regardless of race, color, religion, sex, national origin, ancestry, age, sexual orientation, physical disability, learning disability, genetic background information, intellectual disability, past or present history of mental disorder, status as a Vietnam-era or special disabled veteran or status in any group protected by state or local law (including marital status). A pledge of special consideration will be given to persons with disabilities and the older adult and hiring difficulties that they may experience as a result of their unique circumstances or needs.

As such, program goals will be set to overcome the present effects of past discrimination, if any, and to achieve the full and fair utilization of such persons in the work force. To perpetuate this commitment, we establish equal employment opportunity as our goal and affirmative action as the vehicle by which we will achieve it, in accordance with all existing federal and state constitutional provisions, laws, regulations, guidelines and executive orders, as stipulated in legislation.

Coupled with the above, constant, directed and steady strides will be undertaken to achieve parity within our workplace. To achieve this, new programs and opportunities for advancement will be generated to complement and expand upon those presently in place. In addition, particular attention will be given to such areas as: recruitment, interviewing, testing, hiring, appointment, assignment, evaluation and promotion to ensure that equal employment opportunity infiltrates every area of our employment system. The ultimate responsibility for the monitoring and development of the Affirmative Action Plan is the Executive Director, however prime responsibility for this has been delegated to the Director-Business Services who may be contacted at (860) 577-4204.

To absorb the Affirmative Action Plan into the core of the Authority’s operations, each person involved in its implementation and utilization will be held responsible for its success and progress.

Regardless of an employee’s position or classification, a constant effort must be made to ensure that affirmative action is more than mere words, and that we make a commitment to the common goal of equal employment opportunity and advancement for all.

### Connecticut Housing Finance Authority

28 Connecticut Housing Finance Authority

2016 ANNUAL REPORT
In 2017, CHFA will continue its collaboration with the Department of Housing, along with other state agencies and housing organizations to finance affordable housing to meet the needs of state residents. In addition, CHFA will partner with lenders and realtors to reach potential homebuyers with information on mortgage programs to help them become homeowners.

**Single-Family Homeownership Goals**
- Increase awareness of the DAP program as the lack of funds for a down payment is an obstacle to many potential homebuyers.
- Expand outreach efforts among lenders and realtors, especially those who haven’t worked with CHFA in recent years and may not be aware of loan processing improvements and new programs.
- Collaborate with counseling agencies to expand homebuyer education opportunities in classroom settings and online.
- Continue to provide foreclosure prevention measures including homebuyer counseling and education programs, as well as Emergency Mortgage Assistance Program (EMAP) loans.

**Affordable Multifamily Rental Housing**
- Work with the DOH to support the ongoing program of revitalization of the State-Sponsored Housing Portfolio with the annual allocations.
- Administer and award the Federal 9% and 4% Low Income Housing Tax Credits to leverage millions of dollars in equity with other public and private funds to create new affordable multifamily rental housing.
- Administer the State’s Housing Tax Credit Contribution Program, which brings $10 million in tax credits to affordable housing development.
- Administer a second round of Solarize SSHP in conjunction with the Connecticut Green Bank. Proceeds from the Qualified Energy Conservation Bonds will provide low-cost solar to properties in the State-Sponsored Housing Portfolio.

**Strengthening and Improving the Organization**
- Work to maintain the Authority’s AAA rating with S&P Global Ratings and Aaa rating with Moody’s Investors Service, which allows the Authority to sell its bonds at optimum rates and achieve the lowest costs of funds.
- Implement the Strategic Plan toward the goal of a more performance and mission-driven culture.
- Provide leadership and support innovation in the affordable housing industry, increasing awareness of CHFA.
- Strengthen and update CHFA’s IT infrastructure to better meet the organization’s needs.
